Company	AUK INDUSTRIES PTE. LTD.
Digital Solution Name & Version Number ¹	Auk Edge IoT Device and Auk Industrial IoT Analytics Platform - Starter Kit - 36mths
Appointment Period	21 January 2021 to 20 January 2022
Extended Appointment Period ²	21 January 2022 to 20 January 2023

Standard Packaged Solution (ie. Minimum items to be purchased)

1) Software [36-Months] Ops-Analytics Dashboard and Database hosting per device (for 10 node units) (in effect from DO date) Subscription tier: Business Business Tier limits: - Max concurrent streaming sessions capped at 3 per node license Data storage capped at 20 million messages per active node license, stored for up to 6 years. Further extendable with fee ShiS notifications capped at 20 messages/node/ month (quota non-sharable) - Whatsapp notifications capped at 100 messages/node/ month (quota non-sharable) - Email notifications capped at 100 messages/node/ month (quota non-sharable) - Email notifications capped at 100 messages/node/ month (quota non-sharable) - Email notifications capped at 100 messages/node/ month (quota non-sharable) - Email notifications capped at 100 messages/node/ month (quota non-sharable) - Temal notifications capped at 100 messages/node/ month (quota non-sharable) - Email notification capped at 100 messages/node/ month (quota non-sharable) - Temal notification capped at 100 messages/node/ month (quota non-sharable) - Temal notification and setway - Hardware, Firmware 8 - Configuration - Auk Relay Node c/w VDC PSU - Hardware, Firmware (2 relay node units) - Technical deployment training and software analytics user training (1 half-day session for 10 node units) - Technical deployment training session - Auk Gateway and Auk Egek Node network configuration and setup - Setting up of software dashboard - Software analytics user training and support - Unit price is only applicable to connecting to output signals in the form of 0-10Vdc, 0 or 24Vdc, 1-5Vdc and 4-20mA Any connection involving other forms of output signals (e.g. serial communication) will incur a non-recurring engineering (RNE) fee which will be additional and not included in this quotation Virtual training val video conference will be conducted in place of on-site training should there be any travel and/or safe distancing restrictions	[36-Months] Ops-Analytics Dashboard and Database hosting per device (for 10 node units) (in effect from DØ date) Subscription tier. Business Business Tier limits: - Max concurrent streaming sessions capped at 3 per node license Data storage capped at 20 million messages per active node license, stored for up to 6 years. Further extendable with fee SMS notifications capped at 20 messages/node/ month (quota non-sharable) - Whatsapp notifications capped at 20 messages/node/ month (quota non-sharable) - Email notifications capped at 100 messages/node/ month (quota non-sharable) - Email notifications capped at 100 messages/node/ month (quota non-sharable) - Email notifications capped at 100 messages/node/ month (quota non-sharable) - Email notifications capped at 100 messages/node/ month (quota non-sharable) - Email notifications capped at 100 messages/node/ month (quota non-sharable) - Auk Industrial IoT Edge Node - Hardware, Firmware & Configuration - Auk Relay Node c/w VDC PSU - Hardware, Firmware (2 relay node units) - Per unit 1.00 Auk Relay Node c/w VDC PSU - Hardware, Firmware (2 relay node units) - Training [Half-Day] Technical training and software analytics user training (1 half-day session for 10 node units) - Technical deployment training session - Auk Gateway and Auk Edge Node network configuration and setup - Setting up of software dashboard - Software analytics user training and support - Vinti price is only applicable to connecting to output signals in the form of 0-10/04C, 0- or 24/04C, 1-5/dc and 4-20mA. Any connection involving other forms of output signals in the form of 0-10/04C, 0- or 24/04C, 1-5/dc and 4-20mA. Any connection involving other forms of output signals (e.g. serial communication) will incur a non-recurring engineering (NRE) (se which will be additional and not inculded in this quotation "Additional ancessories and peripheral devices not included "Identification of connection points will be done by client - "Virtual training via video conference will be conducted in p		Cost Item	Unit Cost (\$)	Unit	Quantity	Subtotal (\$)	Qualifying Cost * (\$)
Auk Industrial IoT Gateway - Hardware, Firmware & Configuration Auk Industrial IoT Edge Node - Hardware, Firmware (10 node units) Auk Relay Node c/w VDC PSU - Hardware, Firmware (2 relay node units) 3) Professional Services Not Applicable 4) Training [Half-Day] Technical training and software analytics user training (1 half-day session for 10 node units) - Technical deployment training session - Auk Gateway and Auk Edge Node network configuration and setup - Setting up of software dashboard - Software analytics user training and support *Unit price is only applicable to connecting to output signals in the form of 0-10Vdc, 0 or 24Vdc, 1-5Vdc and 4-20mA. Any connection involving other forms of output signals (e.g. serial communication) will incur a non-recurring engineering (NRE) fee which will be additional and not included in this quotation. *Additional accessories and peripheral devices not included. *Identification of connection points will be done by client *Virtual training via video conference will be conducted in place of on-site training should there be any travel and/or safe distancing restrictions 5) Others	Auk Industrial IoT Edge Node - Hardware, Firmware & Configuration Auk Industrial IoT Edge Node - Hardware, Firmware (10 node units) Auk Relay Node c/w VDC PSU - Hardware, Firmware (2 relay node units) 3) Professional Services Not Applicable 4) Training [Half-Day] Technical training and software analytics user training (1 half-day session for 10 node units) - Technical deployment training session - Auk Gateway and Auk Edge Node network configuration and setup - Setting up of software dashboard - Software analytics user training and support "Unit price is only applicable to connecting to output signals in the form of 0-10Vdc, 0 or 24Vdc, 1-5Vdc and 4-20mA.
